Rugs

Smooth steps

House is conceived as a real and a metaphorical place. It is a project that goes beyond furniture, which invites a reflection on ways of living and the role of design in the configuration of the world we live in and relationships between persons and objects.

Door handles

Open your path

Since 1911 Olivari has been manufacturing handles at its own factories in Italy where the entire production process takes place. Starting with brass billets, the handles are forged, milled, polished, buffed, chrome-plated and hallmarked with a laser. Olivari has attained ISO 9001 and ISO 14001 certifications. Though it uses the most advanced technology, Olivari preserves all the artisanal wisdom it has accumulated in 100 years of history.

Object

Give it life

Simple, beautiful and useful objects
Ornaments, rugs and accessories, an object is an entity that combines aesthetics and functionality while serves a particular purpose.
DISTRETTO DESIGN's object collection comes from some of the principal brands in the field and has one goal: to enhance your space subtly and according to your personal taste.

Projects

We are experts in working with you

We create success by the company we keep. Our name signifies our belief in collaboration.

Working with a wide variety of furniture and luminaries manufacturers, we bring you choice from a vast and regularly updated product portfolio to provide the optimum solution for you.

Armed with a team of experts, technical consultants, skilled tradespersons, designers, in-house and distinguished architects, DISTRETTO DESIGN is able to deliver any type of project, whether yours is a modest home or a palatial estate a small business office, or a grand resort. Our specialists work collaboratively with our clients to specify, source and supply furniture and luminaries for every budget, from high-end, to affordable ranges. In addition to this, our collaboration with internationally established firms and quality suppliers, offers a valuable asset that guarantees an exemplary outcome. Every project, regardless of size, is managed with the same level of professionalism, enthusiasm, and care.

elam
kitchen system

DISTRETTO DESIGN is able to:

- Design. Turn your ideas into plans.
- Provide a wide range of products.
- Advise. In collaboration with the architect and according to the client's request, our interior designer and technician will advise on the best possible products.
- Cost. an upfront costing service with alternatives to always fit the client's budget.
- Propose solutions on decoration and finishes.
- Time manage to guarantee project delivery on time.
- Monitors the progress of the project.
- Transports and installs the products.
- Project Management.

- Method Statement

Upon receipt of a firm order the following procedures will be investigated by our project team:

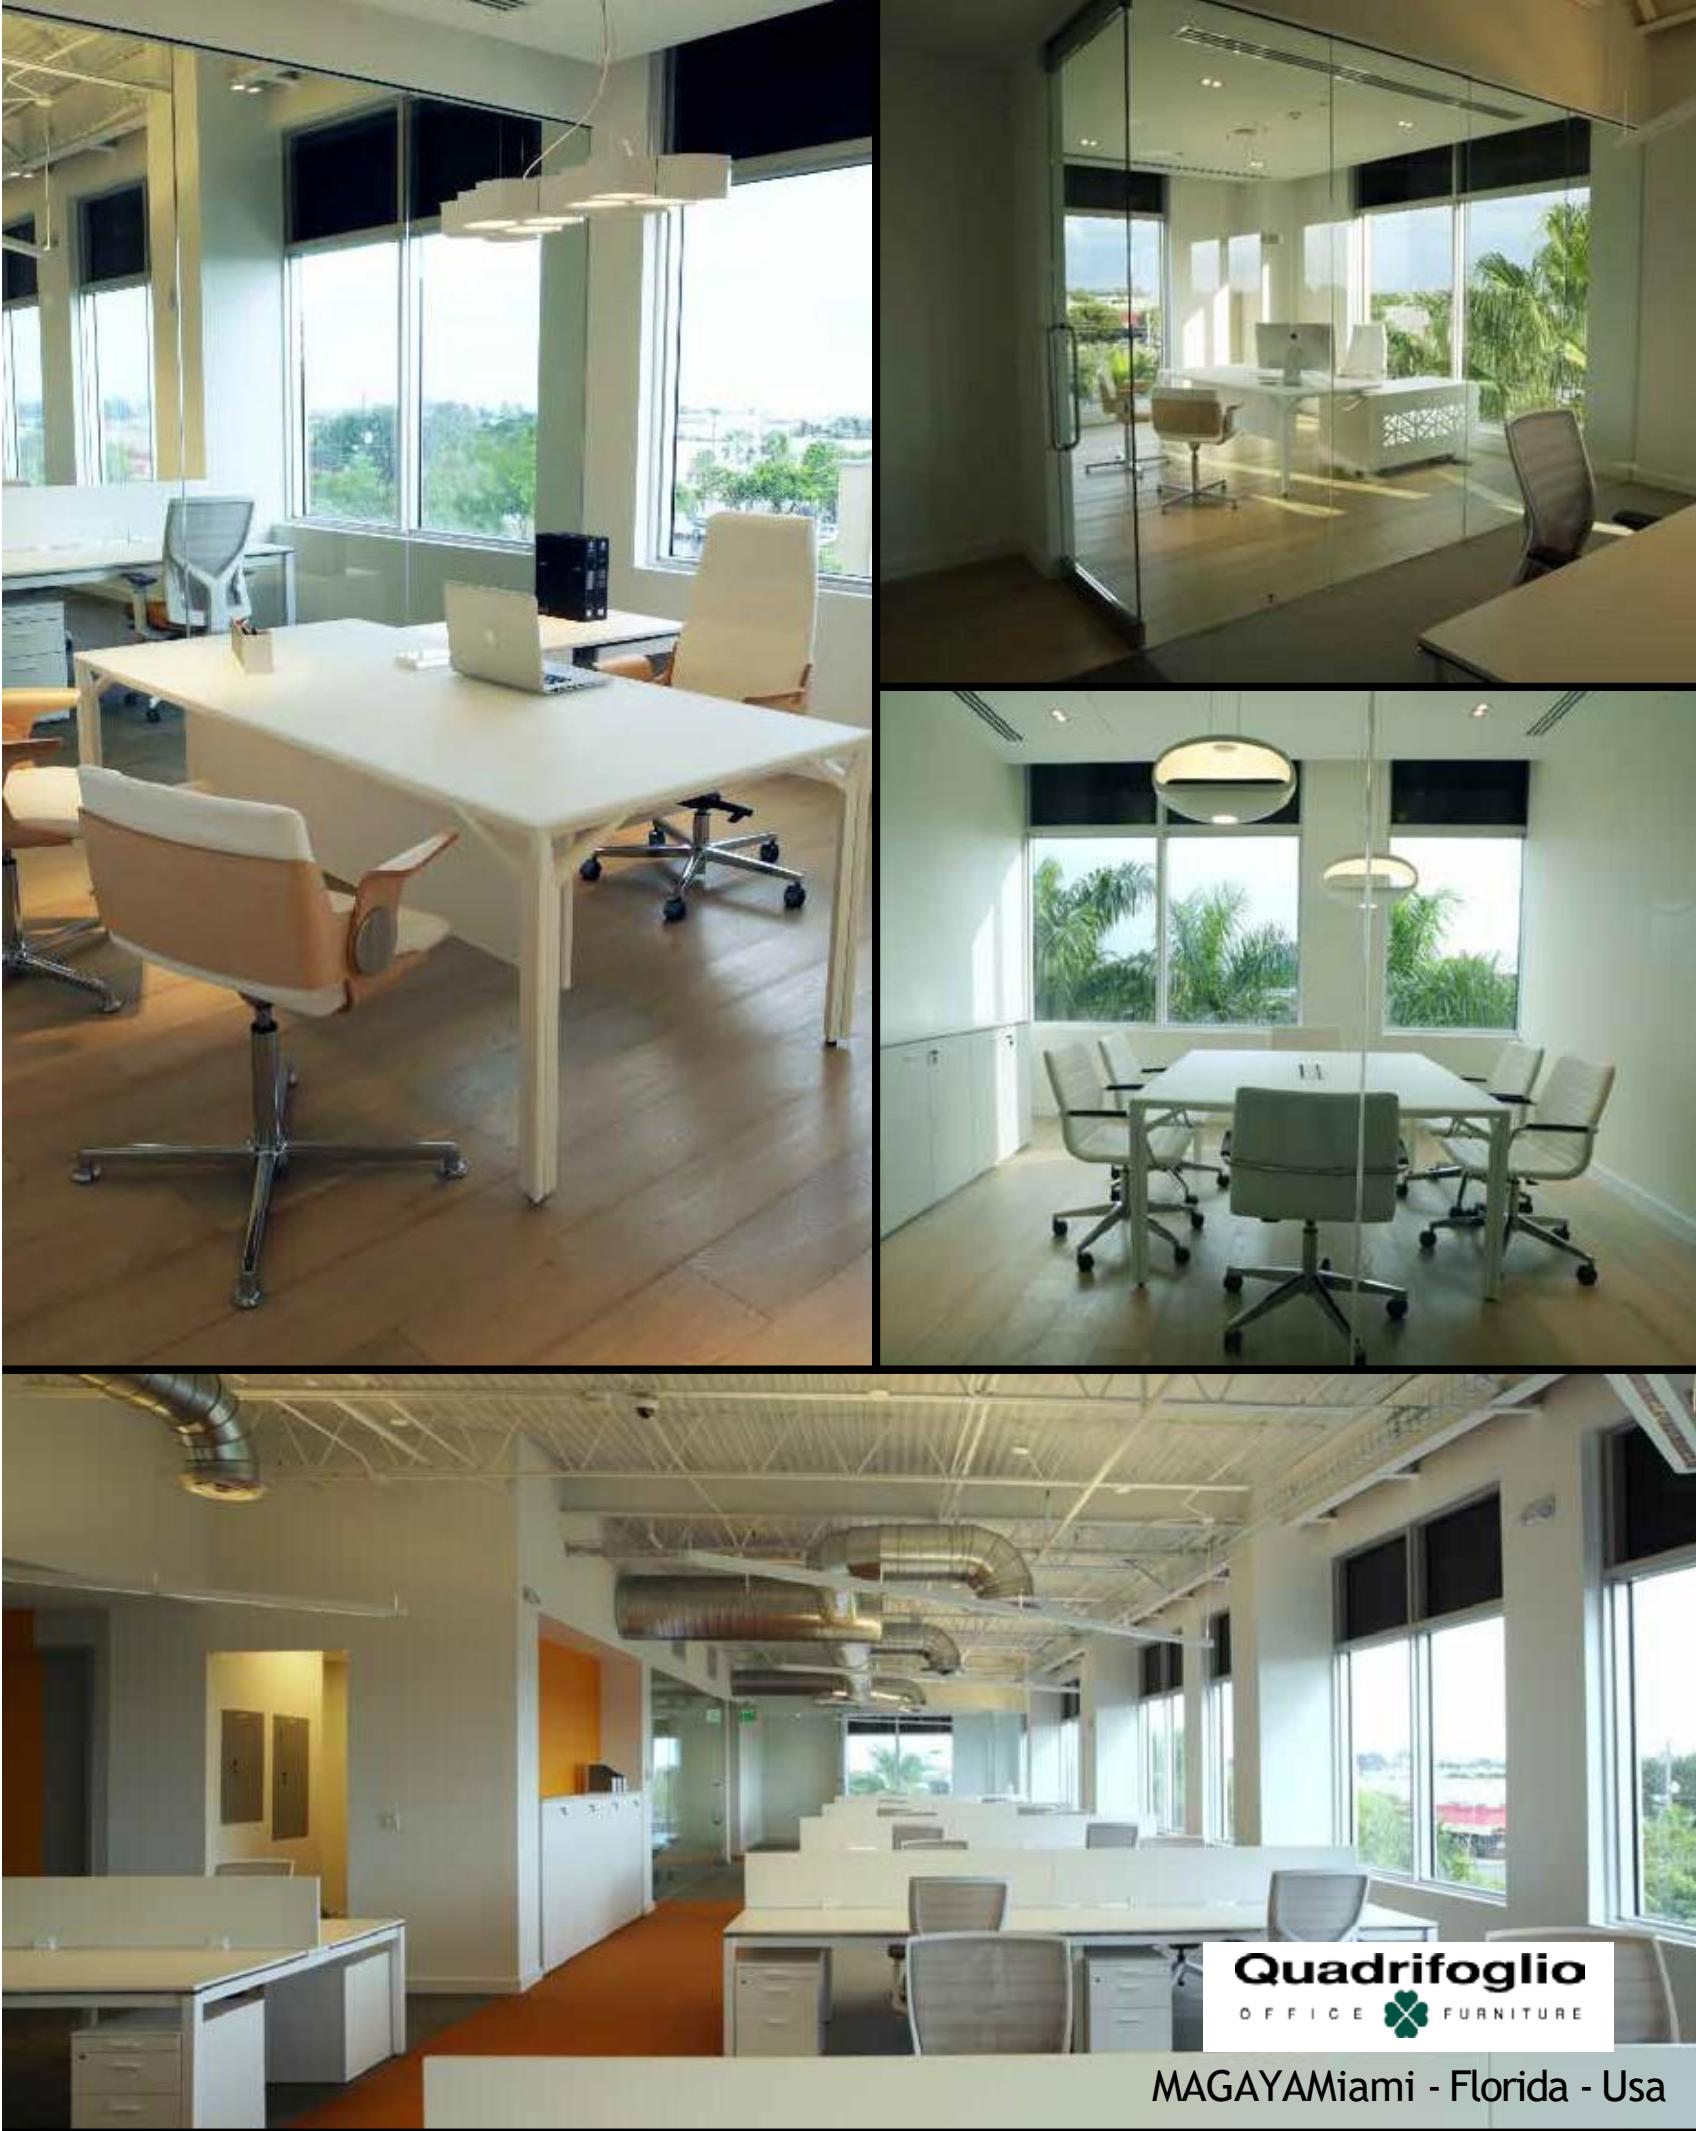

- A detailed program will be formulated covering all aspects of the project.
- The specification and initial drawings will be finalized and sent for written approval. These drawings will accompany a bill of materials, produced directly from the drawing detailing every component.
- Upon receipt of written approval, the product code information together with delivery requirement dates will be loaded into our internal order processing system, by customer services.

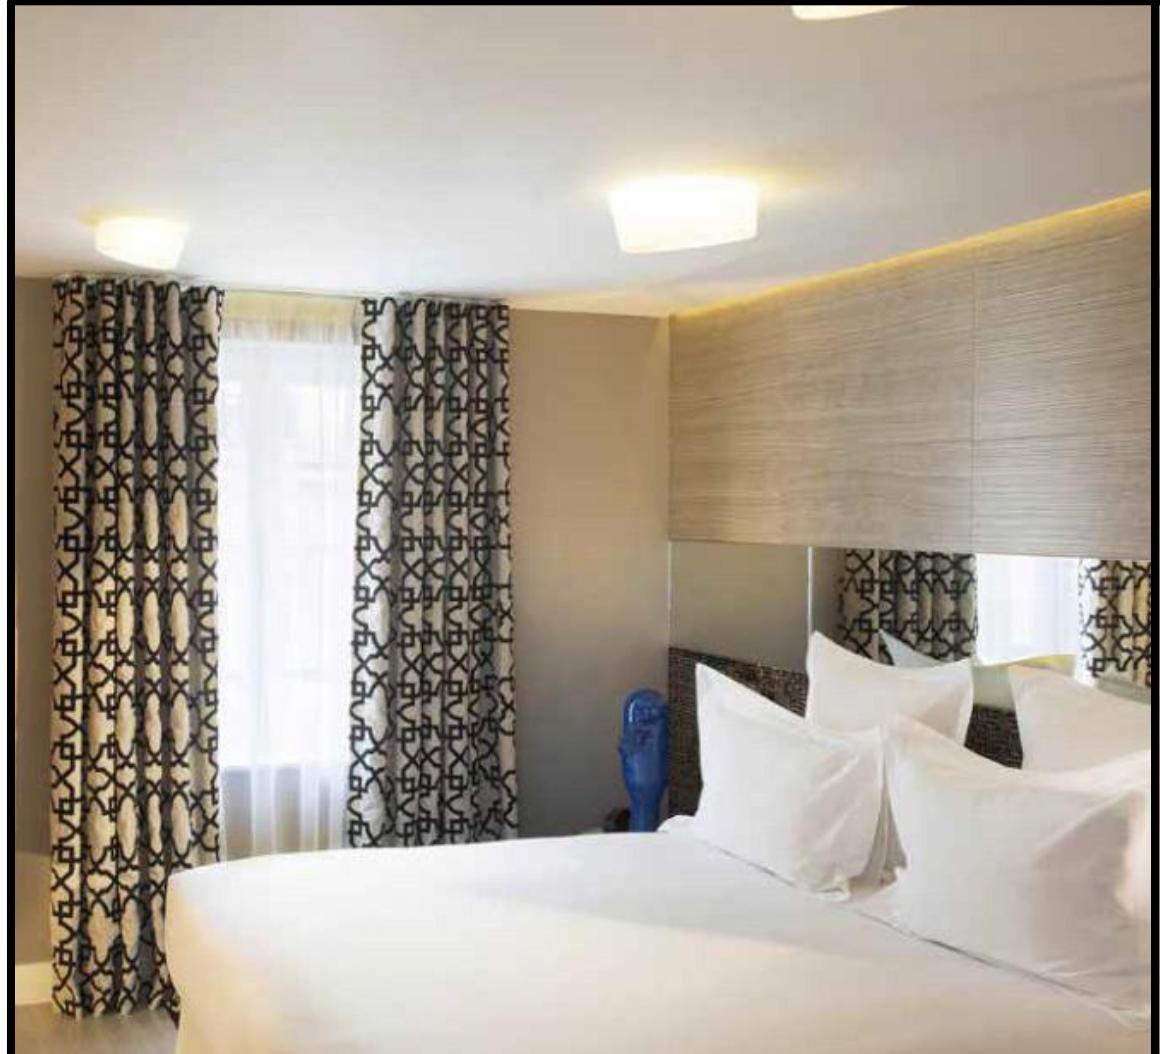

- Once input, an order confirmation is raised and communicated to the customer. A copy of this confirmation is transferred to our assistant production manager who details component stock requirements whilst our MRP system handles sheet requirements.
- A quality assurance inspection takes place during all stages.
- The finished order is compiled at warehouse stage and the product is stored/loaded depending on requirement and time scale. Delivery sequence is determined by the Project manager in conjunction with the contractor / customer.

- On Site Activities

- Prior to delivery the project manager (or nominees) will visit the site to ensure that all areas are ready and suitable for installation to commence. All access routes, including lifts, will be checked for adequacy and that they are safe and clear. All routes will be assessed for protection requirements and all necessary protection fixed prior to arrival.
- Actual numbers and types of personnel will vary according to the project, but will always be adequate to complete the installation within the allotted time.
- Site hours will be as required to meet the demands of the project.
- Each phase will be delivered and off loaded by trained personnel, distributed to its designated area, unpacked and checked against the delivery documentation and for damage. Damages and/or Shortages will be reported to the project manager who will instigate corrective action.

- The work area will be kept clean and tidy as far as reasonably possible and packaging will be returned to the factory, or deposited into designated areas for recycling as soon as it has been freed.
- Once sufficient furniture for a designated zone is on site, it will be assembled by trained personnel and placed in its final position.
- As each zone is completed it will be cleaned and inspected. Once satisfied, the project manager will offer the installation to the customer for acceptance and for written approval.
- Power tools will be limited to battery powered screw drivers. Charging will take place off site unless specific permission is granted for this to be done on site.
- All phases of the project will be monitored by the project manager or nominees.
